

Provider's Name: _____

Observer's Name: _____

1: Yes	2: No	3: Somewhat (needs support)	1	2	3
Did the provider use the Goal Tracker handout to help explain the global child outcomes?					
Did the explanation about the global child outcomes include a discussion of the following:					
• Functional behaviors and skills?					
• Information used to determine the child's rating for each outcome?					
• How the ratings are determined (comparison with age expected behavior and skills)?					
• Description for each rating category?					
• How the ratings are used?					
Did the provider explain how the family is involved in the global child outcomes rating process?					
Did the provider explain how the child's IFSP goals relate to the global child outcomes?					
Did the provider assist the family in documenting the child's IFSP goals on the Goal Tracker if needed? Leave blank if N/A					
Did the provider explain to the family that they are the experts about their child and important members of the team?					
Did the provider explain why it is important for the parent to know about typical child development?					
Did the provider show the family the different resources about typical child development on the Goal Tracker and help them access the resources if needed?					
Did the provider recommend the family use the Goal Tracker on an ongoing basis?					
Did the provider recommend the family hang the Goal Tracker on the refrigerator or display it in another easily accessible place?					
Did the provider establish a climate that allows the family to feel comfortable to share ideas and ask questions?					
When sharing information, was the provider's explanation jargon-free, clear, and simply stated?					

Feedback about the use of the Goal Tracker
