The 3rd edition of the Annual Dental Review will be held at the beautiful Embassy Suites Resort at Kingston Plantation and should prove to be a GREAT UPDATE FOR THE GENERAL DENTISTRY. This year’s program will feature MANY NEW TOPICS of interest to the GP. The program will be highlighted by an excellent line-up of speakers including Dr. Dennis Fasbinder, a noted expert in CAD/CAM and digital dentistry, as our featured speaker, as well as our guest speakers, Dr. Gavin Heymann, along with outstanding faculty from UNC.

Day 1 will be highlighted by Dr. Fasbinder with an insightful look into the broadening field of digital dentistry and what new and exciting technologies mean for the contemporary practice of today. Dr. Fasbinder is currently the Director of the Computerized Dentistry Program and a Clinical Professor in the Department of Cariology, Restorative Sciences and Endodontics, University of Michigan, School of Dentistry. Dr. Fasbinder directs the Computerized Dentistry Unit at the University of Michigan School of Dentistry that is dedicated to research and education on CAD/CAM dental systems.

The CompDent Unit has been a leader in education and research with computational systems and has a wide array of marketed systems available for hands-on, patient-care experience as a part of the educational program. Dr. Fasbinder has been engaged in laboratory and clinical research with CAD/CAM systems since 1993. His research interests and endeavors have been in the areas of applied laboratory and clinical evaluation, and development of esthetic materials and techniques for CAD/CAM dental technology. He has presented many programs on Digital Dentistry and technology at numerous meetings and courses in North America and around the world.

Also a returning speaker on Day 1 is Dr. Gavin Heymann, Orthodontist, and Clinical assistant Professor in the Department of Orthodontics of the UNC School of Dentistry. Dr. Heymann will review the many new treatments and technologies in the area of orthodontics that will be of interest to the General Dentist.

Day 2 will begin with a superb presentation by Dr. Taiseer Sulaiman, (PhD in Biomaterials), who will review the many new ceramic systems available today. Dr. Sulaiman will compare and contrast these systems based on the latest scientific information and the various aesthetic attributes that each of these systems exhibit. Additionally on Day 2, Dr. Terry Donovan will chronicle the various cementing systems that are available today and identify the clinical considerations for each type of cement. Day 2 will end with an insightful 25 year retrospective view of vital bleaching by Dr. Harald Heymann, who will also highlight what we currently know about tooth whitening systems.

Day 3 will kick off with a continuation of Dr. Gavin Heymann’s presentation on advances in orthodontics, updating the General Practitioner on what technologies and treatments currently exist in this field. Furthermore, Dr. Ed Sowell, will provide an excellent review of light curing systems and technologies that will be of vital interest to practitioners. Finally, our featured speaker, Dr. Denis Fasbinder, will provide an insightful look into the growing area of CAD/CAM systems and will highlight the various growing clinical applications. Get the facts based on research, not opinion and hope! This year’s 3rd Annual Dental Review program promises to be one of the very BEST EVER!

ACTIVITY OBJECTIVES
At the completion of this activity, participants should be able to:
1. Describe chair-side CAD/CAM systems for in-office implementation as well as their advantages and limitations.
2. List the clinical applications for chairside CAD/CAM systems including restoration of natural teeth and dental implants.
3. Identify the ceramic materials used with digital techniques and relate the current scientific evidence for their clinical application and longevity.
4. Chronicle and differentiate among the many new ceramic systems and indicate the indications and advantages/disadvantages of each.
5. Describe the many new innovations in orthodontic treatment options along with novel technologies that are important to the General Dentist.
6. Identify the various types of light curing systems and the clinical considerations that are vital to optimal light curing.
7. Review the various types of cements that are available along with the clinical indications for each.
8. Identify the various approaches to vital bleaching and associate clinical considerations for optimal safety and success.

MEET THE SPEAKERS
Dr. Dennis Fasbinder is the Director of the Computerized Dentistry Program and a Clinical Professor in the Department of Cariology, Restorative Sciences and Endodontics at the University of Michigan, School of Dentistry. He is board certified in General Dentistry by the American Board of General Dentistry. He also maintains a part-time private practice in Ann Arbor, Michigan.

Dr. Fasbinder directs the Computerized Dentistry Unit that is dedicated to research and education on CAD/CAM dental systems. The CompDent Unit has been a leader in education and research with chairside CAD/CAM systems and digital impression systems since 1993 resulting in numerous publications. He also sits on the review boards for a number of refereed journals.

Dr. Gavin Heymann earned his DDS and MS degrees at the University of North Carolina. His areas of clinical interest include interdisciplinary treatment, use of temporary anchorage devices in orthodontics and applications of orthodontic dental materials. Dr. Heymann is an adjunct clinical assistant professor in the UNC Department of Orthodontics, and has lectured internationally to orthodontic and dental audiences alike. He maintains a private orthodontic practice in Chapel Hill and Durham, NC.

Dr. Taiseer Sulaiman earned his DDS and MS degrees at the UNC School of Dentistry. He is a Diplomate of the American Board of General Dentistry, a Fellow of the American College of Dentists, and a member of the Alpha Omicron Rho Dental Fraternity. Dr. Sulaiman is a life member of the American Academy of Biomaterials.

ADA STATEMENT:
The University of North Carolina at Chapel Hill is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, sex, age, veteran status, or disability.

Dental education institutions have an obligation to disseminate new knowledge related to dental practice. In so doing, some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by the University of North Carolina does not necessarily imply endorsement of a particular philosophy, procedure, or product by this institution.

The University of North Carolina School of Dentistry cautions continuing dental education participants that there is a potential risk of using limited knowledge when incorporating new techniques and procedures into the practice of dentistry, especially when the continuing education course has not provided supervised clinical experience and/or competency tests in the techniques or procedures.

By providing my information, I consent to receive communications via mail, email, fax, and phone from the University of North Carolina Continuing Dental Education office. The Continuing Dental Education office will not share your information with anyone.

ADA CERP Recognized Provider. The UNC School of Dentistry designates this activity for up to 12 hours of continuing education credit for attending the complete 3 day program. Up to 4 hours of continuing education credit per day, subject to regulation by individual state boards. This course will be held daily from 8:00 am to 12:30 pm. Your registration fee includes a continental breakfast each morning, course materials and CE credit. UNC CDE recommends that you do not make air travel arrangements prior to receiving a receipt of payment or confirmation. UNC CDE is not responsible for any travel-related costs. The complete 3-day course registration fees are $333 for Dentists and $295 for Team Members. You may attend on a daily basis for a fee of $200/day for Dentists and $110/day for Team Members.

Cancellation Policy
A registration refund, less a $50 fee, will be issued for cancellations received in writing to Wednesday, June 8, 2016. Cancellation requests must be received in writing via fax 919-537-3098 or email cde@dentistry.unc.edu. The cancellation request must include: the name of the activity, the name of the person registered, the name of the person requesting the cancellation, and the reason for the cancellation. No refunds will be issued after Wednesday, June 8, 2016. The UNC School of Dentistry Continuing Dental Education Program cannot be responsible for the refund of any part of the registration fee as a result of emergencies, unforeseen circumstances, or events beyond its control after the cancellation date. The University reserves the right to cancel or postpone any course due to unforeseen circumstances. In the event of cancellation or postponement, the University will fully refund registration fees but not responsible for any related costs or expenses to participants, including cancellation fees assessed by hotels, airlines, rental car or travel agencies.

The UNC School of Dental Continuing Dental Education Program cannot be responsible for the refund of any part of the registration fee as a consequence of individual state boards of dentistry. This course is not approved for any continuing education credits by any state board of dentistry.

**ADA STATEMENT:**
The University of North Carolina at Chapel Hill is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees based on race, color, national origin, religion, sex, age, veteran status, or disability.

Dental education institutions have an obligation to disseminate new knowledge related to dental practice. In so doing, some presentations may include controversial material or commercial references. Sponsorship of a continuing education course by the University of North Carolina does not necessarily imply endorsement of a particular philosophy, procedure, or product by this institution.

The University of North Carolina School of Dentistry cautions continuing dental education participants that there is a potential risk of using limited knowledge when incorporating new techniques and procedures into the practice of dentistry, especially when the continuing education course has not provided supervised clinical experience and/or competency tests in the techniques or procedures.

By providing my information, I consent to receive communications via email, fax, and phone from the University of North Carolina Continuing Dental Education office. The Continuing Dental Education office will not share your information with anyone.
