

How your day starts

- ~~How does your child let you know he or she is awake? (cognitive, communication, social-emotional)~~
- ~~How does your child get out of bed? (adaptive/self-help and motor)~~
- ~~Is your child happy or sad when he or she wakes up? (social-emotional and communication)~~

Combine the questions in this section, and have a general discussion about the wake up routine in the morning. How many hours does the baby sleep? How do you know when she is awake? Can you leave her in her bed for a few minutes after she wakes? (cognitive, communication, social-emotional, adaptive and motor)

Bathing, dressing, diapering, and toileting

- ~~How does your child help with dressing? (communication, adaptive/self-help and motor)~~
How does she respond to being dressed and undressed? Is there anything difficult about dressing and undressing?
- What does bath time look like for you and your child? Is bath time a fun or stressful time of day? (adaptive/self-help, cognitive, communication, motor, and social-emotional)
This question is fine as it is
- ~~How does your child let you know that he or she needs a diaper change or needs to use the toilet? (adaptive/self-help and communication)~~
How often do you find you need to change her diaper? How does she respond to diaper changes? Are you concerned with the number of wet diapers or bowel movements she has in a 24 hour period?

Mealtime

- ~~What do meal times look like for your child? Is there anything difficult or special about meal times? (adaptive/self-help, communication, motor, social-emotional)~~
How are you feeding her? Who feeds her? Where do you feed her? Is there anything difficult or special about feeding? How long does a feeding session usually take? Does the baby fall asleep while being fed? If yes, does this happen occasionally or on a regular basis? If bottle fed, does she take the same amount of formula at each feeding? How many times a day do you feed her and how much does she take each time?
- ~~How does your child let you know when he or she is hungry or thirsty, what he wants to eat, and when he is finished? (communication, adaptive/self-help and cognitive)~~
Is she fed on a schedule, or do you wait for her to be hungry? How do you know she's hungry? Are you concerned that your baby eats too little or too much?
- ~~What are your child's food-related likes or dislikes? How do you know? (communication and nutrition)~~
This question can be skipped for a very young infant

Playtime and other daily activities

- ~~How does your child play? What does he or she like to play with? Are there times that are easier or more frustrating than others? (cognitive, communication, and motor and social-emotional)~~
How do you like to play with her? What does she seem to enjoy? Is there a time of day that is frustrating or more difficult for you? If yes, when, and in what ways? How do you calm her when she gets upset? Does she have any self-soothing techniques (pacifier, sucking on thumb/finger)?
- ~~Does your child have the opportunity to be around other children and adults? If yes, how and where does your child interact with them? (cognitive, social-emotional)~~
- ~~How does your child act when you take him or her out in public? How does your child respond to separations and transitions? (motor, social-emotional, and communication)~~
Does she seem to notice if someone new or different is taking care of her or interacting with her?
- ~~How does your child follow directions? Respond to limits? (cognitive, communication and social-emotional)~~
This question does not apply for a very young infant
- Are there certain days when the routine is different? If yes, how does your child respond to the changes? (social-emotional)
This question is appropriate as written

Bedtime and naptime

- ~~How do you prepare your child for bed time and nap time? How does your child let you know he or she is sleepy? (adaptive/self-help, cognitive, communication and social-emotional)~~
- ~~How does your child fall asleep? How long does he or she sleep? (adaptive/self-help and social-emotional)~~
How do you know when she is sleepy? Does it seem difficult or easy for her to get to sleep? Do you do anything that helps her get to sleep? How long are her naps during the day? How many naps is she taking? How long is she sleeping at night? If she wakes up at night, is she up for a while or does she go back to sleep after being fed and having her diaper changed?
